

My pets!

I have two cats, their names are Gustav and Tussi. Gustav is yellow with dark yellow stripes. Tussi is grey and white. She is grey most of the body and the paws, the underside of head and hers belly is white.

Gustav sleeps often in the window in the kitchen and Tussi sleep in the windows of my mothers office. Sometimes she pushing the router and the internet turns of.

If that happens I put in the cable again.

Gustav is purchased from Cat Command South. (Katt Kommando Syd) An Animal Right organisation.

Gustav is castrated and has a chip in the neck. Tussi is sterilized and have a chip in the neck too.

Both Gustav and Tussi are fuzzy and have two holes in the nose and long whiskers.

Sometimes Gustav jumps up on the refrigerator and puts down the magnetic yellow monkey and plays with the yellow monkey toy.

In the hall they have the poopbox there they always do toilet and I clean the poopbox every morning and give them food and water.
